MEDICAL

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN

Remember that procrastination is the thief of me

COME AND BE HEALED!

It matters not what you troubles may be come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P.S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00

WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Bilious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly

Their action is gentle than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervline is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer. Bottles of two sizes: prices, 50 cts. and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

PRINTING.

THE BRITISH COLONIST

A DAILY AND WEEKLY PUBLICATION.

ESTABLISHED IN 1858.

This Journal has the largest and most extended circulation of any newspaper in the Province. It is the only publication in British Columbia that receives

TELEGRAPHIC DISPATCHES.

Its value as a news and advertising medium is therefore very great. Within the past few weeks an entirely

NEW DRESS

has been provided, and the paper having been improved in other respects is the most reliable medium of intelligence on the Northern Coast.

THE DAILY COLONIST

Is delivered by carriers at subscribers' doors at 25 CENTS PER WEEK.

THE WEEKLY COLONIST

Is sent to any part of the Province, Canada, the United States or Great Britain for

THREE DOLLARS A YEAR,

Always in advance. Orders may be sent by mail.

THE JOBBING DEPARTMENT

Has been entirely renovated and now contains three Steam Presses and a complete line of

NEW TYPE

For performing every description of

COMMERCIAL PRINTING

Executed with neatness and dispatch.

MISCELLANEOUS.

DYSENTERY CHOLERA FEVER AGUE, COUGHS, COLDS.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the Inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. Collis Browne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. Davenport, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

WATEROUS ENGINE WORKS CO.

BRANTFORD, ONTARIO.

CHAMPION PORTABLE SAWMILLS

George Book writes, St Anns, Ontario, June 17th, 1879, regarding his 16 horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill and move it, we tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days. In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes—inch lumber." Three sizes built—12 H.P. using 44 in. saw, capacity 3 to 4000 per day. 16 H. P. using 48 in. saw, Capacity 4 to 5000 per day. 20 H. P. using 52 in saw, No. 3 saw irons. Capacity 5 to 8000 per day.

Most simple, efficient and portable mill of its size in the world.

STOCKS AND MINES.

CARIBOO LAKE DITCH AND MINING COMPANY, (LIMITED)

Location of Works, North Fork of Quesnelle River.

NOTICE.

THERE ARE DELINQUENT UPON THE FOLlowing described stock on account of assessment No. 2, levied on the 22nd day of July, 1880, the several amounts set opposite the names of the respective shareholders, as follows:—

	Shares.	Amount.
W. Jeffries	100	$25 00
C. Austin	50	12 50
W. Budd	100	25 00
J. O. Jones	100	25 00
G. Truman	100	25 00
W. Polleys	100	25 00
F. Guy	100	25 00
J. K. Barker	100	25 00
W. T. Jarvis	50	12 50

No Certificates issued.

And in accordance with law so many shares of each parcel of said stock as may be necessary will be sold at the office of the G. Byrnes, auctioneer, on the 16th day of September, at the hour of 12 noon of said day, to pay said delinquent assessment thereon, together with costs of advertising and expenses of the sale.

CHARLES WILSON,
se5dw Secretary, Barkerville, B.C.

TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 23 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

DR. CAPITAL ACCOUNT.

To sundry shareholders for 600,000 shares at $1 each	$600,000 00
	$600,000 00
CR.	
By assessment acct. amount called up	$ 31,440 08
By balance, capital subject to call	568,360 00
	$600,000 00
DR. ASSESSMENT ACCOUNT.	
To capital acct., amount called up	$ 31,440 00
	$ 31,440 00
CR.	
By Cash acct., amount of assts collected	$ 31,167 64
By balance, delinquent on 51,774 shares bought in by Company	272 36
	$ 31,440 00
DR. CASH ACCOUNT.	
To assessment acct	$ 31,167 64
To bullion acct	1,256 67
To Sundries	191 70
	$ 32,616 01
CR.	
By property acct., purchase of locations	$ 745 15
By mine acct., labor, material, &c	13,171 54
By mill acct., cost, freights, erection, &c	13,098 01
By balance, cash on hand	601 31
	$ 32,616 01
DR. BALANCE.	
To liabilities in debts due by the company	nil
CR.	
By assets—5 locations valued at	$ 745 15
5-stamp mill & appurtenances	7,000 00
Buildings, mining tools and material	2,000 00
Cash on hand	601 31
	$ 10,346 46

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time. JAS. REID, President.

R. J. SKINNER, Secty.

Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof. M. M. HAGARTY,
my26dw1m Auditor.

INSURANCE.

ROYAL INSURANCE COMPANY, LIVERPOOL AND LONDON.

ANNUAL MEETING.

THE SHAREHOLDERS OF THE COMPANY held their Annual Meeting on the 6th inst., and as has been customary in previous years, it affords me much pleasure to indicate on this occasion the prominent features of the very satisfactory report which the Directors were enabled to render of our transactions during the past year. It will, I am sure, be gratifying to our agents to know that the success which has hitherto characterized the operations of the "Royal" continues unabated—a fact which will be appreciated at once on a perusal of the following brief resume of the figures appearing in the report.

In the FIRE BRANCH the net premium income amounted to £779,315, and a profit has been realized of £142,140. The aggregate of premium received in the LIFE BRANCH amounted to £247,194, and as the result of the quiquennial investigation which has just taken place in this department a handsome surplus was found to have accrued for division amongst the assured and the shareholders, of which the proportion (3ths) payable to the policy-holders is £228,218, the balance, say, £79,404, going to the shareholders.

The funds of the Company have at the same time been materially strengthened, the sum of £100,000 having been added to the general reserve fund and £50,708 to the Life Funds, while the balance at the credit of the Profit and Loss Account has been augmented by £51,727.

The Dividend granted to the Shareholders amounted to £120,643, or upwards of 41 per cent. on the paid up capital, and the various funds of the Company now stand as follows:—

Capital Paid up	£ 250,645
Fire Fund	500,000
Reserve Fund	900,000
Balance of Profit and Loss	121,434
Life Funds	2,449,615
	£4,260,695

It will be interesting to our Agents to learn that the "Royal" is now the wealthiest known Fire Insurance Company in the world, and this circumstance will doubtless constitute a powerful assistance to each of its representatives in their efforts not only to maintain, but to improve the position which it occupies in their respective districts.

I am, dear sir, yours truly,

DIGBY JOHNSON,
Sub-Manager.

THE CIRCULATION "TRAP."

The little city print which has received, during the past few days, rather more notice at our hands than its obscurity entitles it to, heads its farewell article on the circulation matter as above. The title is appropriate. Our contemporary *has* been caught in a trap of its own construction. Designed originally for us the trap has closed upon the inventor and holds him fast. After hoisting at the head of its columns a falsehood so palpable that even the Chinese laundrymen who buy overplus *Standards* to send their "washee" home in, and the native maidens who subscribe to it because it makes such nice bustles, are indignant, it declines to accept the generous offers of our carriers to donate $50 to the city orphanages and a like sum to the Royal Columbian Hospital at New Westminster if the daily circulation of *The Colonist* does not exceed that of the *Standard* by from two to five copies. This is too bad, and the poor little orphans will be awfully disappointed, not to mention the patients at New Westminster who were anticipating a "blow out" as the outcome of the propositions. Well, our carriers have done all they could to make our contemporary come forward; but he refuses, notwithstanding the fact that he is not asked to wager a single cent—the carriers offering to donate the sums mentioned should they fail to prove that the circulation of this journal in Victoria exceeds that of the *Standard* two to one, and at New Westminster by at least five to one. Our contemporary having taken leave of the subject, we shall have to do likewise; but he is gravely mistaken if he imagines that the public feel no interest in the controversy. On the contrary, they are deeply interested when they insert advertisements in a newspaper in knowing whether they were putting them where the greatest or the smallest number of persons will see them. Weare requested to state that the propositions of our carriers will remain open for six months from date; so, if at any time during that period our contemporary should feel disposed to accept them, he will know where to apply. In the meantime, we trust that the organ will not again array himself in the lion's skin. His bray, like his sin, will be sure to "find him out."

THE NEW RAILWAY SCHEME.

We have only time and space this morning to direct attention to the important and interesting article on the subject of our railway taken from the New York *Herald*. The article possesses deep interest for our readers, and having evidently been written by one who is thoroughly informed as to the nature of the scheme and the syndicate, and who is in a position to write almost authoritatively, may be accepted as one of the most valuable contributions to Canadian Pacific literature that has yet made its appearance. No one should fail to read the article.

China and Japan.

CHINA.

SHANGHAI, Aug. 25.—A memorandum written by Col. Gordon relating to organization of the Chinese army has been published. It disapproves of the employment of foreigners in the Chinese army, and advises China to confine her purchases of war material to common breech-loading guns for her infantry, and says that her fleet should consist of small vessels of light draft for coast defence. Mortars are recommended, as no cannon the Chinese can buy could penetrate ships that are now built.

The unconditional release of Chung How and departure of Col. Gordon have created the belief that China will accept whatever terms Russia may see fit to impose.

It is stated that the viceroy of Canton has received instructions that the coast defences need not be hurried.

The publication by Sir Thomas Wade, British minister, of an extract from order in council, threatening fine and imprisonment to any British subject who should accept service under the Chinese in the event of hostilities with Russia, is regarded here as a gratuitous insult to Col. Gordon, who was on the eve of departure at the time of its publication. Mr. Hart, inspector of customs, and the British minister are accused of lack of courtesy to Gordon, whom they endeavored to dissuade from seeing Li, or going to Peking.

JAPAN.

YOKOHAMA, Sept. 4.—Since the arrival of the Corean ambassadors a great deal of their time has been spent in visiting various government institutions. They have been entertained in foreign and native style by many prominent officers of the government, and on the 30th of August were presented in audience to the mikado. They were accompanied to the palace by two Japanese officials of the foreign department, and the presentation took place in the presence of the prime minister and privy councillors.

The Italian man-of-war Vettor Pisani, commanded by the Duke of Genoa, has paid a visit to Corea, but all attempts at communication with the government were unsuccessful.

Prospects for an abundant rice harvest are good.

THE PACIFIC RAILWAY.

The Negotiations in England.

HISTORY AND ESTIMATED COST OF THE LINE.

THE PACIFIC CABLE.

(New York Herald Correspondence.)

LONDON, Aug. 17.—Readers of the *Herald* are aware that the Premier of the Dominion of Canada, Sir John Macdonald, and other leading officials are now in this country, and it has been publicly announced that their visit is in connection with plans to secure the construction of the long-talked of Canada Pacific Railway. This work was commenced a year or two ago as a government enterprise, but the ministry have apparently become somewhat frightened at the magnitude of the task or have become discouraged by the absence of aid from the Imperial government, which was expected at the inception of the undertaking. Be the cause what it may, it has been determined, if the proper parties come forward, to hand over the work to a public company, assistance and inducements being offered to promoters, as was done in the case of the transcontinental lines on the other side of the boundary. The total length of the projected system is 2,200 miles, of which it may be said that 600 are either completed or under construction. The government, it is announced, are prepared to grant a subsidy of $20,000,000 in cash, payment to be spread over the period of ten years, assumed to be necessary for the construction of the line, an amount equal to $10,000 per mile, or about one-third of the estimated cost. A further grant will be made of 35,000,000 acres of land, to be located in alternate sections along the route, as was done in the case of the Union and Central Pacific ocmpanies. The 600 miles under construction will be handed over to the company without cost.

THE FINANCIAL SITUATION:

Negotiations on these bases have been for some months on hand, and it is at last an open secret that the late visit of Mr. J. H. Puleston, M. P., to Canada was in connection with an offer to find the requisite capital. A number of names are freely mentioned here is likely to be associated with the corporation, if one can be formed, but it is certain that up to the date of writing nothing whatever has been definitely decided upon. The Canada Ministry have powers under the act of the Dominion Legislature either to continue constructing the line as at present or to subsidize a company for the purpose, and they certainly will not conclude any bargain with any party of capitalists unless the latter are prepared to furnish ample guarantees for the proper completion of the work. Upon this point, it is said, the matter for the present "hangs fire." Among the parties who, it is said, have been approached by the promoters to take seats on the Board of the proposed company is Mr. John Pender, the great submarine telegraph magnate, and Sir Henry Tyler, M. P., the chairman of the Grand Trunk Railway of Canada,, has been requested to join in the hope of bringing in the aid of the large constituency of proprietors he represents—some eight or nine thousand in number—supposed at present to be very sanguine and with plenty of capital, considering the enormous recent rise in the price of their securities. It is difficult, however, to see why Grand Trunk stockholders should be eager to support a project which must be, to a certain extent, in competition with their own line, which it would only join at Mentreal, and if the proposed branch to Sault Sainte Marie is constructed, the connection with American lines at that point would absolutely take traffic away from Grand Trunk system.

It cannot be said that much confidence is felt in the success of the parties who for the present have the ear of the Canadian officials, but there are rumors of a powerful combination of Anglo-American bankers who are considering the question of making alternative offers should the present negotiations break down, as is not unlikely, on the question of the necessary guarantees. In proper hands there can be no doubt that a great success would attend efforts to raise the money, whatever the ultimate result of the outlay may be. Canada and Canadian investments are popular here at present. The Grand Trunk and Great Western Railway properties have within the past year emerged from the cloud of discredit which has so long hung over them, and give promise of returns to holders of all classes of their securities whose chances of receiving a penny of dividends until recently looked almost hopeless. The past rather shabby treatment of the Grand Trunk Company by the Dominion government has been forgotten in the liberal terms given on the purchase of the Riviere du Loup section of the line, the proceeds of which unremunerative railway enabled the company to acquire its valuable Chicago connection. The agricultural distress here has turned popular attention to the vast Western prairies, whose produce competes so keenly with home ground breadstuffs, and the only comfort to ultra-patriotic Englishmen is derived from the belief—be it right or wrong—that the worst part of this competition in the future will come from the "fertile belt" of country within British territory, to be opened up by the new Canadian enterprise. In the truth or falsehood of the glowing account as to the fertility of the soil between the Red River and the Rocky Mountains, and the consequent continued attraction of emigrants to the region, lies apparently the success or failure of the Canada Pacific as a commercial enterprise. The most favorable reports are, however, genreally believed here, and they are put forward with all the authority of Canadian blue books. It seems, therefore, certain that, launched under proper auspices, a Canadian Pacific railway company would find any amount of capital required. Money remains a drug in the hands of the investing public. Warned by past experience of bubble companies and defaulting governments, capital has been accumulating here for several years past, and the result is seen in the almost prohibitive prices to which the best British and American railroad and other securities have been driven. If placed in an attractive form before the public any large enterprise like the Canadian Pacific Railway would be welcome as affording a relief to the existing plethora.

HISTORY OF THE ENTERPRISE.

The history of the undertaking, so far under the control of the Canadian government, is as follows: The first expenditure on construction was toward the end of 1874. Contracts were then entered into for the telegraph from Lake Superior to British Columbia along the route of the railway, including the clearing of the forest land to a width of 132 feet. The line was divided into four sections, on three of which the work was prosecuted with vigor and the telegraph completed from Fort William to Edmonton, 1,200 miles, so that messages could be transmitted. The remaining section across the mountains to British Columbia remains incomplete. In the same year (1874) the grading of the Pembina branch of sixty-three miles north of the international boundary was commenced. In 1877 the grading was extended to Selkirk under the same contract, and in 1878 the track was laid on the whole length, eighty-five miles. In 1874 the extension of the Canada Central Railway to the eastern terminus, near Lake Nipissing, was subsidized. Early in 1875 two sections were placed under contract—the one from Fort William, thirty-three miles to Sunshine Creek, and the other east from Selkirk, seventy-six miles to Cross Lake. An extension east of Cross Lake, thirty-six miles to Keewatin, at the outlet of the Lake of the Woods, was placed under contract in January, 1877. In 1876 a contract was made for an extension from Sunshine Creek west to English River, eighty miles. In 1878 the Georgian Bay branch was undertaken; but this work was subsequently abandoned. For the spring of 1879 the line between English River and Keewatin, 185 miles, was let in two contracts, and in the summer following a section of 100 miles west of Red River, including a branch from the main line to the city of Winnipeg, was placed under contract. At the British Columbia end of the line ground was broken toward the close of last year, when the grading, bridging, track laying and blasting, from near Yale to Savona's Ferry, a distance of 127 miles, was placed under contract.

The length now under construction is thus as under:

	Miles.
Fort William to Selkirk (main line)	410
Selkirk to Emerson (Pembina branch)	85
West of Red River (main line and Winnipeg branch)	100
In British Columbia (main line)	127
Total under construction	722

A second 100 mile section west of Red River has recently been let, making a total of 822 miles under construction, consisting of main line 720 miles and Pembina and Winnipeg branches 102 miles. In April last the rails were laid 136 miles west of Fort William and 90 miles east of Selkirk, and traffic trains ar eregularly run from Emerson to Cross Lake, 161 miles.

WHAT IT WILL COST.

The cost of the route will, it is said, bear favorable comparison with that of the other completed and projected transcontinental lines. The general summit to be attained is lower and the gradients more moderate. While the Central Pacific in climbing the Sierras attains a height of over 7,000 feet, and the Union Pacific passes the Rocky Mountains at an elevation of over 8000 feet, the Canadian Pacific has but one summit on its route at Yellow Head pass, where a level of 3,460 feet is reached. The cost of the 406 miles from Fort William to Selkirk, approaching completion, will be about $17,000,000, and for the Pembina branch the outlay has been $1,750,000 For the whole route from Lake Superior to the Pacific coast, Mr. Sandford Fleming, the Government Engineer-in-Chief, has made the following estimate, including a fair allowance of rolling stock and engineering during construction:

	Miles.	
Fort William to Selkirk	406	$17,000,000
Selkirk to Jasper Valley	1,000	13,000,000
Jasper to Lake Kamloops	335	15,500,000
Lake Kamloops to Yale	125	10,000,000
Ya'e to Port Moody	90	3,500,000
Add say	..	1,000,000
Total	1,956	$60,000,000

The above does not include cost of exploration and preliminary surveys over a wide extent of country between latitudes 49 deg. and 56 deg., along the route, amounting to over $3,000,000, nor the cost of the Pembina branch, $1,750,000, nor other amounts with which the Pacific Railway account of the Government is already charged. In the course of the surveys three alternative routes through the mountains into British Columbia have been laid down in addition to the line as finally fixed to Burrard Inlet. All of these are further to the north than the selected line, and average about two hundred miles greater length. They follow respectively the Peace River Pass and the Pine River Pass, and it is recommended that one or the other be constructed when practicable on account of the value of the territory thus to be opened up.

A PACIFIC CABLE.

The last report of Mr. Fleming also covers urgent recommendations as to the establishment of a Pacific submarine cable in connection with the Canadian Pacific telegraph system. The cable, it is suggested, may start from one of the deep water inlets at the north end of Vancouver's Island, and be sunk in a direct course to Japan, or it may touch about midway, Ambia, one of the Aleutian islands. At Yeddo, in Japan, the connection would be made with the Asiatic telegraphs. As an alternative route the submarine may land on one of the Kurile Islancs north of Japan, and thence extend direct to Hongkong. Either course would complete the connection with the whole Eastern telegraph system and effect important results. Such a line would connect all the great business centres of America with China and the principal ports of Asia much more directly than by the present lines of telegraph by way of Europe. The new line would be employed for most part by the English speaking people of both hemispheres, and the frequent mistakes of polyglot telegraph operators in Europe be avoided. The further inducement is held out that it would bring Great Britain, Canada, India, Australia, New Zealand and South Africa and all the outer provinces and colonial possessions of Great Britain into unbroken telegraphic communication with each other in entire independence of the lines which pass through other European countries.

To the Public.

The public is perhaps not aware why the eight *English* Companies doing business here have suddenly become so patriotic as to publish ("purporting") departmental reports of Canada and paying for them out of their own pockets. When the "PHENIX" of Brooklyn had done business here about a fortnight we received a letter signed by H. S. Mason, Secretary of the eight companies who have hitherto done business here, to adopt the minimum rates. This we declined to do on behalf of the Phenix. Next morning and ever since the papers have been flooded with insurance information which nobody asked for, and which was only put in to prevent people insuring in the Phenix and keep up the high rates hitherto ruling here. As the matter is pretty well ventilated now we wish to inform the public that our Victoria rates are:—*For isolated dwellings ¾ per cent. a year or 1½ per cent. for three years*, exclusive of city tax,—just half the rate charged for the same risk by the eight companies represented by Mr. Mason.

That the PHENIX stands very high as an honorable company we publish a letter received, unsolicited, from an American fire office in San Francisco.

"We note your advice to the Fire Department of having taken the agency of the PHENIX of Brooklyn, New York. It is a *first class company* and you will do doubtless a good business for it. We regret for ourselves that there will be a probable cessation of risks from your quarter, but are glad for your sake that so good a company has come your way and wish you lots of luck with it. Yours truly,

"W. J. DUTTON,
"Asst. Sec. Fireman's Fund Ins. Co."

The PHENIX has got a *Cash Capital of $2,532,669*, which is more than the insured value of all the property in British Columbia, hence there is absolute security. A deposit of $104,000 is made with the Dominion Government.

We have authority to settle all losses in Victoria, and promptly, too, not like one of the advertising companies, which took 3 months to pay a loss incurred less than 2 years ago.

For insurance apply to
H. F. HEISTERMAN & Co.,
Agents of the Phenix Ins. Co.,
1m of Brooklyn.

A Remarkable Cure.

One of the best testimonials to the efficacy of any medicine ever published in this paper is that of Mr. Charles S. Prentice, of Toledo, which will be found on the second page. He recommends Warner's Safe Kidney and Liver Cure as a remedy for Bright's disease, and supports his recommendation by giving the details of his fruitless effort to be cured of that malady by consulting eminent practitioners at home and abroad. Mr. Prentice refers to a number of persons who are prepared to testify to the truth of his statements. H. H. Warner & Co., proprietors of the medicine, are a prominent and respectable house at Rochester, N.Y., and would not urge the sale of a valueless nostrum. Any one suffering kidney or liver disease should give the remedy a trial—Lowell (Mass.) Journal, Nov. 28th, 1879. 6

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, &c. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment *that* cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages, and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your family a whole winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample Bottles 10 cents. Regular size 75 cents. Sold by your Druggist.

Bord Pianos.

TO THE PUBLIC.

IN ANSWER TO MR. CLAY'S "CAUTION TO Saloon Keepers," I beg to state that I had no intention of pleading the "Tippling Act," and told him so previous to the case being called; but in his account were charges amounting to over $20 for goods which I am prepared to swear were never ordered nor received by myself nor any member of my family. My lawyer, therefore, thought it perfectly justifiable to plead the "Tippling Act," which reduced the amount by $11. I have now paid Mr. Clay more than $8 above what was due to him. I leave the public to judge if I was not justified, under the circumstances, in pleading the Act as a set-off to Mr. Clay's attempt to obtain payment for goods which had never left his store. WILLIAM O. BRYANT.
Victoria, Sept. 22, 1880. se23

CAUTION TO SALOON-KEEPERS.

MR. WILLIAM BRYANT, HORSE-SHOER AND general smith, has frequented my place of business during several years, treating himself and his customers on credit many times. Asking him frequently for a settlement he finally pleaded the Tippling Act as a set-off to my claim.

THE POSTOFFICE FRONT.

A New Style of Tendering.

TO THE EDITOR OF THE COLONIST—SIR:—Tenders were called for the 28th August for the repair of the postoffice front—Mr. Tiedeman being the architect; but they were deemed too high, the proposed front being nearly all of stone. New tenders were called for the 4th September, Mr. Tiedeman fixing the time limit (verbally) "at next spring," adding that he would not have the roof touched this winter. On the 7th, when the contracts should have been signed, he said the first of March allowed time enough to finish up the job. What can be the thought of an architect who will tell one party that if they got the job he will alter the specifications so that they can put the stones as far through the wall as they liked; but if another party gets it, then he will make them put the stones all the way through the wall, as the specifications call for? "I wants my revenge." On Monday the 6th, Mr. Clark, who has now secured the job, made no secret of telling every bid that had gone in. Where did he get his information from? No one would suspect anyone in Hon. Mr. Trutch's office. That gentleman would always like to see fair play. Then how did Mr. Clark come by the figures? Had he the power to summon little spirits to convey the news as soon as the tenders were opened? On the 7th inst. Mr. Carroll was called on to sign the contract, he being the lowest tenderer, and (as before stated) Mr. Tiedeman said the 1st of March was plenty of time. He did not sign as the time was too short for him. Now, then, why was not Mr. Galley sent for, he being the next lowest, only $60 above Mr. Carroll. On Wednesday the 8th, tenders were called for the third time to be sent in on the 10th. There were no alterations of plan, and the tenders of the 4th stood as follows:—Kinsman & Styles, $8,500; Smith & Clark, $8,600; William Galley, $8,400, Henry Carroll, $8,340. W. Galley sent in a note stating that his tender of the 4th would stand good as there was no alteration of plan. Kinsman & Styles did the same. Smith & Clark dropped their bid from $8,000 to $7,975—that is, if rumors are correct; but we have no exact means of knowing. Since Clark has got the job there is no one able to call up spirits to give the information. Another advantage that the contractor has got since the contract was signed is that the occupants are to leave the building while it is being repaired, which is a very great advantage. Nearly all the mechanics in town are talking about this matter and feel thoroughly disgusted with the whole affair. They are not surprised at the part Mr. Tiedeman has played, and they now call attention to it in the hope that a strict inquiry into the circumstances will be made. MECHANIC.

TO BUSINESS MEN!

THE COLONIST has more than double the Circulation of any other Paper published in Victoria, and is the only Publication in the Province that receives Telegraphic Dispatches.

The Island Railway.

Mayor Turner has telegramed Sir John Macdonald asking to be informed whether the Island railway is comprehended in the agreement just completed with an Anglo-American syndicate. This is a very proper and sensible step and one which, we think, will meet with a quick reply. Sir John sailed from England on the 16th inst. and is due in Canada about to-day.

THE FLYING SQUADRON. — The Inconstant, flagship of Rear Admiral Lord Carr William; the Cleopatra, Captain Durrant; the Bucchante, Captain Lord C. Scott; and the Tourmaline, Captain R. P. Denistoun, will be the vessels forming the flying squadron. The cruise will be exceptionally protracted, as they will sail first to the Pacific, thence proceeding to Rio de Janeiro, Montovideo and the Falkland Islands. After touching at the Sandwich Islands they will put in at Japan to await further sailing orders, the arrival there taking place in all probability in September of next year.—*Broad Arrow.*

REV. DR. MILBURN will arrive here on Monday next by the Isabel, and his first lecture will be delivered the same evening.

THE steamer Cariboo-Fly left as usual yesterday morning for Nanaimo and way ports with the mails and about a dozen passengers.

LATEST FROM THE NORTH:

THE STEAMER OTTER SUCCESSFULLY FLOATED.

WILL ARRIVE TO-DAY TOWING THE STEAMER SKIDEGATE.

GENERAL NEWS ON THE COAST.

The steamer Princess Louise, Captain Lewis, arrived here at 3 p.m. yesterday from Fort Wrangel and way ports with freight and passengers. She left here on the 13th inst. and after calling in at Cadboro Bay to take on board 40 head of cattle shipped by Messrs. Vanvolkenburgh & Co. for the Cassiar market proceeded on her voyage, coaling at Departure Bay and landing at Bella Bella the party of mechanics sent up under Mr. S. Sea to float the stranded steamer Otter. Fort Wrangel was reached on the 17th inst. at 8 a.m. and the cattle referred to were landed, but owing to the low stage of Stickeen river there was no steamer to take them up, the Gertrude being still detained at the boundary line unable to return to Wrangel. On the return voyage the Princess Louise also touched at wayports and on reaching Bella Bella found that the steamer Otter had been successfully floated off the rocks on which she struck and after being beached had left for this port, having the disabled steamer Skidegate in tow. It appears that as soon as Mr. Sea and party reached the Otter, Mr. Harman, the diver, put on his submarine suit and went down to examine the condition of the vessel. He found that she had sustained very little damage, but that the tide flowed in and out through a port-hole. This once closed the vessel was pumped out when she floated off the rocks with comparative ease. An examination of her hull disclosed the fact that the copper on her starboard side is intact, but on her port side a small portion of the metal has been torn off and one or two of her timbers are somewhat indented. The damage, however, is only trifling and she may be expected to arrive here this afternoon with Captain Gardiner in command. At Georgetown the steamer Princess Louise took on board 27,000 feet of lumber which was landed at Bella Bella and will be used for the erection of a church and house for the Wesleyan Mission there. Revs. Crosby and Tate disembarked at Bella Bella and will remain there for the present. Bishop Ridley and Mrs. Ridley intended to leave Fort Simpson on the 22nd for the Forks of Skeena where they propose to pass the winter months and establish a mission school. At Port Essington a German named Wormsoth, a cooper by trade, who is believed to be of unsound mind, was taken on board and on the voyage down was in custody of Mr. McDermott. The unfortunate man went to Essington last spring and has been suffering from mental aberration for about three weeks. Whilst on board his demeanor was quiet and inoffensive, but previously he was violent. The residence of Bishop Ridley has been completed by the contractors, Messrs. Smith & Clark, the work throughout being of a highly creditable character. The Princess Louise brings a cargo consisting of 14,000 feet of lumber from Williscroft's mill, 120 casks of oil and 740 packages of salt salmon, &c., from Naas River. Amongst her passengers were Mrs. Croasdaile, Miss Crease, Mrs. Morrison, Rev. Mr. Hall and Mrs. Hall, Dr. Tolmie, Messrs. R. H. Hall, Geo. Williscroft and J. I. White.

The Geological Map.

The geological map of the southern interior of British Columbia coloured to illustrate the geological survey of the same district, recently published in the last "report of progress, is very interesting just now. The map takes in the west bank of the Fraser from near the mouth up to some distance north of Lillooet, and covers the various ranges of the Rocky Mountains on the east. The courses of the Fraser and Thompson rivers, and indeed of all others in the region, are defined with unusual clearness, and as the map is really the only one of the district possessing a claim to anything like topographical accuracy it is likely to be in demand. The authorities followed in its preparation are the Pacific railway surveys up the Fraser and Thompson; the boundary survey for the region along the 49th parallel; Baitish Columbia local survey plans; the geological survey of Mr. Richardson in 1871 and Mr. Dawson in 1877, and Mr. Trutch's map of 1871 for regions not covered by more recent information. The map is intended to accompany Mr. Dawson's report just mentioned.

THE first completed 80-ton gun was lifted on board the Inflexible and placed in its permanent bearings in thirty-five minutes. Some idea of the monster may be gained from the statement that it is six feet in diameter at the broadest part of the breach, eight feet ten inches across trunnions and twenty-six nine inches long. The weight of its projectile is 1700 pounds. Four of the weapons will constitute the turret armament of the Inflexible, two in each turret.

LIEU.-COL. DURNFORD, brother of the Col. Durnford, on whom Lord Chelmsford strove to place the responsibility for the Isandluna disaster, has a letter in the *Times* clearly showing that the General's statements in the House of Lords were untrue. Lord Chelmsford was very foolish to seek exoneration for his own incompetency at the expense of a dead comrade, and the only result of the controversy has so far been to excite anger against the General and sympathy for Col. Durnford's family.

THE DRY DOCK STONE.—The San Francisco *Newsletter* enters a protest against the use of Bellingham Bay sandstone in the construction of the drydock. The *Newsletter* is both right and wrong; Right in its condemnation of the B. B. article; wrong in stating that it will be used at Esquimalt. British Columbia stone will be employed.

GAZETTED.—The Canada *Gazette* of the 4th inst. announces that a first class "short course" certificate from the Royal School of Gunnery, Province of Quebec, has been granted to Capt. C. T. Dupont, Victoria Battery Garrison Artillery.

THE AMATEURS. — We were in error yesterday in stating that Triumph amateurs would appear on Thursday evening next. The entertainment will be given by the Rockets and their Victoria friends.

SALMON—Range from $1.07½ to $1.20 per dozen at San Francisco.

COAL.—No large sales to report from San Francisco and prices continue low.

THE CASSIAR.—This steamer will be inspected by Mr. Westgarth on Monday.

Latest from Yale.

[Exclusive Dispatch to The Colonist.]

YALE, Sept. 22.

No. 2 tunnel was opened yesterday between 11 and 12 o'clock. Mr. Onderdonk was escorted through between three and five o'clock this afternoon by Isaac Walker after the debris had been cleared away. They were the first party to pass through.

The William Irving brought a big load of freight and towed the mining dredger from Emory to Hill's Bar. She came through Hell's Gate with her like a toy.

The Royal City and Reliance are at Emory with rails. Much interest is felt here in the Through to Yale steamboat project and everyone hopes it will soon be an accomplished fact.

Plucky Cotsford.

Columbia's champion manipulator of the oars writes to the S. F. *Newsletter* as follows: "I will row Fred. Smith for any sum he likes above $500, and allow him expenses, any distance from one mile to five, any class of even boats, any time after two weeks' notice, either in Esquimalt or Victoria harbors. W. COTSFORD." "If this is not accepted, I will go to San Francisco and pull in a prize race, if a purse of $500 were raised to bring together Leahy, Smith and myself."

It seems strange that none of San Francisco's oarsmen can be induced to meet Cotsford. Why, they are as craven as our local and obscure contemporary who cannot be brought to toe the circulation mark.

Municipal Police Court.

(Before Hon. A. F. Pemberton.)

FRIDAY, Sept. 24.

Thomas Thompson, charged by an Indian woman named Stickeen Lucy, with assaulting her by striking and kicking her in the face and other parts of the body was fined $20; in default of payment 2 months' imprisonment.

Willis Bond, summoned by Edward C. Marlaine and charged with neglecting to pay him the sum of $8, being balance of wages alleged to be due. The case was partly gone into and postponed for a week.

County Court.

(Before Hon. A. F. Pemberton.)

FRIDAY, Sept. 24.

Rickman & Ofner vs. McKillican.—Mr. Drake, on behalf of the plaintiffs, applied to his Honor for an order to compel the sheriff to hand over the sum of $230.62 received by him under an execution. The sheriff pleaded the Creditors' Relief Act in support of the course he had pursued in withholding the money.

His Honor said he would take time to look into the Act and give judgment next week.

KEITHLEY CREEK. — A correspondent writing from Keithley Creek under date of the 8th inst. says that on the night previous ice formed to the thickness of a half-dollar piece. The frost had killed potatoe crops and other vegetables were seriously retarded in growth. On July 4th the ground was covered with several inches of snow and at date of writing further downfall was expected. Owing to the demand for teams caused by railway construction freight had risen from 4 cents to 10 cents per lb. and difficulty was experienced in getting goods moved from Yale even at the latter rate. One firm on the creek had 20,000 lbs. of merchandise at Yale and could not get it freighted at any figure. It was anticipated that provisions of all kinds would soon become scarce on the creek. The correspondent adds, by way of postscript, that "the thunder is now roaring like a lion."

THE POSTOFICE.—The blocks of granite now being deposited in front of the post office for repairs to that building are taken from an extensive boulder found on the Hudson Bay Co.'s farm and it is thought that the supply from that source alone will be adequate to the requirements of the contractors. When the work of replastering the walls of the building commonces the post office will be removed to the old city council chambers at the corner of Government and Broughton streets. But some time will elapse before this will be necessary.

NO MISTAKE THERE.—The proclamation further proroguing the Dominion House expired on the 4th September, and upon that date there appeared a renewal of the proclamation further proroguing the House until the 14th day of October. No *hiatus* allowed to exist there. The renewal was made promptly and on the day fixed by the first proclamation. The effects of the remissness of our local rulers in the same direction will shortly be felt.

MEDINA GROVE AND OTHER PROPERTY. Messrs. J. P. Davies & Co. at 12 o'clock noon to-day will sell the valuable residential property known as Medina Grove; a 900-acre farm with improvements on Lulu Island, Fraser river; and 7 lots and a well-built 2-story house on Menzies street, James Bay. The sale will be one of the most important held in this city for a long time and we would advise intending buyers to be prompt in their attendance.

MARINE. — The bark Sierra Nevada arrived last evening from San Francisco for a cargo of Wellington coal....The bark Don Nicolas, under orders for a similar cargo, was towed to Departure Bay yesterday by the steamer Beaver....The bark Hy. Buck, chartered to load spars at Burrard Inlet for Shanghai, was towed up by the steamer Etta White....The ship Spartan sailed from San Francisco on the 18th inst. for a return cargo of Wellington coal.

BOYS' CLOTHING—SCOTCH HOUSE—A. McLEAN & Co. have received a large stock of Boys' Scotch Tweed Suits, which they offer at the lowest possible advance on cost. Also, a fine assortment of Boys' Wool Socks and Stockings, Under Shirts and Drawers and Superior Scotch made Over Shirts 50 cents. *

ST. PAUL'S, ESQUIMALT.—The Harvest Thanksgiving Services will be held at this church on Sunday next at 10:45 a.m. and 7 p.m. The church is being very prettily decorated for the festival and the sermon at matins will be preached by the Venerable Archdeacon Mason, M.A.

THE steamer Enterprise left her wharf at 8 o'clock yesterday morning for New Westminster with the mails, express and a full freight.

RETURNING. — The steamship Areata will return to Departure Bay for another cargo of Wellington coal for San Francisco.

BASSO, not Bossi, is the name of the boy who was feloniously assaulted.

THE steamship Dakota arrived at San Francisco on Thursday evening.

American Mail.

[Per Steamer Isabel.]

Blaine is opposed to long terms of office for the President. He says that frequent elections are a safeguard against revolution, and that the Democrats accepted Hayes' inauguration because they thought they would have another chance after four years.

The German immigrants, the thriftiest class of people who cross the sea, are taken in the easiest and most frequently by the sharpers who haunt Castle Garden German. speech alone seems enough to inveigle them. It is a quiet day indeed when not at least one of them is fleeced.

At a pole-raising in New Brunswick, Ill., two men got into an altercation about politics, and one of them drew his revolver and shot the other through the heart. The dying man shut his knife, put it in his pocket, threw up his hands, said "Hurrah for Hancock!" and fell over, expiring instantly.

A boy in Winamac, Ind., put a revolver into his pocket before being flogged by his parents and after quietly taking his punishment, shot them both.

A Rochester boy died the other day from the effects of poison communicated from pain of forceps with which one of his teeth was pulled twelve days before.

Marie Muscal took a walk in New Orleans with a rival of the man whom she was soon to marry, in order to tell him that he must cease his attentions. Her affianced husband saw them together, and refusing to hear her explanation, peremptorily broke his engagement. She therefore desired to die, and tried to throw herself before a locomotive, but she slipped and only lost a leg. Her recreant lover convinced of her loyalty to him will now marry her.

"Dr." Buchanan, of bogus diploma fame in Philadelphia, and the hero of recent bogus suicide, set sail with his wife on board the *Sardinian en route* for his native Scotland.

Eastern Canada Mail.

[Per steamer Isabel.]

TORONTO, Sept. 13.—The new syndicate for the publication of the Toronto *Globe* is understood to have been completed. The principal shareholders are Mr. Nelson, of Edinburgh, Scotland, J. Gordon Brown, Hon. D. A. Smith, H. H. Cooke, M. P., Senator McMasters, Ald. Halleron, of Toronto, and Taylor Bros., paper manufacturers. These names are the best indications that there will be no change in the political policy of the paper as has been rumored. It will continue to support the Liberal party.

ST. JOHNS, N.B., Sept. 13.—In the Probate Court to-day judgment was given declaring the will of the late John Drury void, on the ground that it had not been properly attested. The deceased was the man who in May last killed one of his brothers, wounded another, and then killed himself. He had previously made a will leaving his property to his sister, the wife of Chief Justice Allen. The wounded brother, W. Chipman Drury, recovered, and objected to the will with the result stated.

English Mail.

[Per steamer Isabel.]

Seven hundred and fifty million pounds sterling have been invested in English railroads in fifty years.

Balloons have been added to the camp requirements at Aldershot for experiments in seeing an enemy's position.

In a British peerage list appear 498 names, of which 5 date from the thirteenth century, 5 from the fourteenth century, 11 from the fifteenth century, 20 from the sixteenth century, 67 from the seventeenth century, 119 from the eighteenth century, and 271 from the nineteenth century.

London *World*:—"At this moment the landlords of the United Kingdom are suffering severely. The shoe has at last really began to pinch; and when the owners of estates which have hitherto been valuable sources of income feel acutely the necessity of retrenchment, and find themselves with some of their best and largest farms on their hands, a crisis may be said to have arrived. There are probably not a hundred landed proprietors in the United Kingdom who are not more or less anxious as to the future and hampered as to the present. The great territorial magnates, like the Dukes of Devonshire and Northumerland, can survey the situation with equanimity, but to those gentlemen whose annual rental is from £2,000 to £4,000 the prospect is gloomy indeed."

Bord Pianos

Are used all over Europe and the colonies. A fine display at Bagnall's Music Store. Also, English, German and American Pianos and Organs. Some choice Violins, Guitars and other musical instruments. *

BOYS' CLOTHING.—W. & J. Wilson have just received an invoice of Boys' Suits, purchased at the salvage sale of the stock of Samuels Brothers, London. These Suits are made of Samuels Brothers' celebrated "Wear-resisting Fabrics," and as they were bought a great bargain W. & J. Wilson now offer them at less than 10 per cent. advance on Samuels Bros'. marked prices. *

ST. CHARLES MUSIC HALL. — Grand Minstrel and Variety Performance tonight and every night except Sunday at this Hall, the only place of amusement in the city. Performances commence at 8:15 sharp. Entire change of programme three times a week. Admission Free. *

PIANOS AND ORGANS.—Mr. A. L. Francis, professional tuner and regulator, will remain at Victoria for a few days. Parties wishing their pianos or organs tuned or regulated should leave their orders at Waitt's bookstore. Satisfaction guaranteed. Refers to Capt. Tibbals, Port Townsend; C. C. Morse & Co., Portland, and M. Gray, San Francisco. *

Ohio Lawlessness.

In Circleville County, O., the other day, Thomas McDonald, a noted desperado and the terror of this district, was first brutally ill-treated and then lynched. He had gone to Commercial Point, which is but a mile or two from his house, got on a regular spree, flourishing an open knife in his hand, and threatened to kill John P. Bolin, the Democratic candidate for Sheriff, and one or two others. About one o'clock in the afternoon he went into a grocery kept by M. V. Beavers with whom he had a fight several weeks ago, and came out second best. He remarked to Beavers that he was glad that he (Beavers) had whipped him recently, but that he would yet get even with him, and threatened to kill him, exhibiting an open knife. Beavers, who is a powerful man, immediately assailed him, knocking McDonald to the floor and stamping his face to a jelly, crushing his only remaining eye out of its socket until it hung down on his cheek. Beavers then got hold of a club, and was only persuaded from ending his existence by the bystanders. McDonald's body was rolled into the gutter, and remained there for three hours, as no one was allowed to remove him. About 4 o'clock an express waggon was procured, and McDonald was taken to his home. Tuesday night, about 11 o'clock, twelve masked men appeared at the house, and rushed in and dragged McDonald from his bed, he being more dead than alive, and totally blind, and when in the yard a rope was fastened around his neck and his body was dragged over 300 yards and hung to a tree. His wife and two children ran to a neighbour's for safety. The body was cut down in the morning. Mrs. McDonald recognized one of the maskers as one Satterfield, a constable of that township. A mask was found on the ground where the execution took place. Two arrests were made.

Insurance.

Summary of Premiums received for Fire Insurance in Canada by the undermentioned offices having Agencies in the Province of British Columbia for the years 1875-1878. [From Official Returns.]

The Title of "Singer" a Trade Mark.

When the Singer sewing machine patents expired in 1877 a number of companies were formed to manufacture "Singer" machines, a prefix being usually added as "New York Singer;" but an Ohio Court has just decided that the word "Singer" is a trade-mark in whose use the courts will protect the original company. A like case has been carried to the House of Lords in England and decided in favor of the Singer Company. —*S. F. Bulletin, Aug. 25.* *

REMARKABLE RESULTS FOLLOW.—Pain ceases, swellings subside, fever abates, and a natural and healthy state exists after using this great and wonderful preparation known as Thomas' Eclectric Oil. Thousands testify to the happiness resulting from the use of this preparation. Why not procure a bottle at once? The cost is trifling, and effect sure. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts, which, we think, should be sufficient to satisfy the most sceptical:

Thomas Robinson, Farnham Centre, writes: "I have been afflicted with Rheumatism for the last ten years, and have tried many remedies without any relief, until I tried 'DR. THOMAS' ECLECTRIC OIL,' and since then have had no attack of it. I would recommend it to all."

See what the Medical Faculty say: Dr. Beaudoin, Hull, P. Q., says: "I have sold 'Thomas' Eclectric Oil' for two years, and I have never sold a medicine which has given me more thorough satisfaction. I have used it in my own case on a broken leg and dislocated ankle, with the best results."

A. H. Gregg, Manufacturer of Mowing Machines, Truemansburg, N. Y., says:—"My thumb was caught in a machine and badly injured, being away from home, for two days, was obliged to apply such remedies as I could get, but without relieving the pain. Immediately upon reaching home I applied the ECLECTRIC OIL, with almost instant relief. I have a large number of men employed, and your Oil has established for itself such a reputation that nearly every one of them keeps it."

It is composed of SIX OF THE BEST OILS THAT ARE KNOWN. Is as good for internal as for external use, and is believed to be immeasurably superior to anything ever made. Will save you much suffering and many dollars of expense.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

THOS. SHOTBOLT, Chemist, etc., Johnson street, Victoria, agent for the Province of British Columbia.

DENTAL.—Mr. R. B. Thompson, Dentist, having removed to his new rooms in Masonic Building, Government street, immediately over T. Wilson & Co.'s dry goods store, is now prepared to attend to his patients there. *

RESERVE YOUR ORDERS for the Metropolitan Meat Market, which will be at your doors early this morning with a choice assortment of Meat at low rates. * H. SULLIVAN.

The Best and Only Remedy.

628 L. St., WASHINGTON, D.C., June 8th, 1879.

H. H. WARNER & Co.—GENTLEMEN:—I have known of the remedy now called Warner's Safe Kidney and Liver Cure, for the past eight months, and can personally testify to its efficiency in kidney and liver troubles. I can truthfully say that in my opinion it is the best and only efficient remedy for such troubles ever brought before the public.

Yours, very truly,
6 COL. JOHN K. MCCHESNEY.

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

Testimonials without number.

Call and examine for yourself at the manufactory on Store, Chatham and Discovery streets. *

Blank Book Manufactory and Book Bindery.

MEDINA'S GROVE.

We have received instructions from the Cemetery Committee of the Corporation of the City of Victoria to sell by Public Auction,

On Saturday, Sept. 25, 1880.

AT 12 O'CLOCK, NOON,

AT SALESROOMS, WHARF STREET,

All those certain pieces or parcels of land designated as Subdivisions XVIII, XIX, XXI and XXII

BECKLEY FARM,

And better known as the Picnic Grounds

MEDINA'S GROVE

These lands have been subdivided into

FOUR HOMESTEAD BUILDING LOTS

Having each a frontage of 148 feet on Dallas road by a depth of 258 feet, and

EIGHT SUBURBAN RESIDENCE LOTS,

Each having a frontage on Medina street of 120 feet by a depth of 296 feet.

☞ This property is situate on Dallas road, that fine wide Avenue and favorite drive to Beacon Hill Park, fronting the ocean with an unobstructed view of the Fuca Straits, with the snow-clad peaks of the Olympian range of mountains in Washington Territory rising in the distance in solemn and magnificent grandeur.

THE SALUBRITY OF ITS LOCATION enhanced by the excellent facilities for drainage, the great fertility and depth of soil, free from rock, together with easy terms of payment and low rate of interest, make this one of the best opportunities ever offered in Victoria to secure a suburban

HOMESTEAD BUILDING SITE

in the best and most desirable portion of the City, each subdivision exceeding seven-eighths of an acre on streets 66 ft. wide.

MAPS can be had at the office which will give intending purchasers a fair idea of the situation and dimensions of several subdivisions, and will serve for future reference. This favorable opportunity should not be missed, as the remaining lands have been reserved by the Government for a Public Park.

TERMS OF SALE.

A deposit of 50 per cent. will be required as soon as sold. The balance in half-yearly instalments or at once, at the option of the purchaser. Interest on deferred payments 8 per cent. per annum. Deeds at Buyer's expense.

J. P. DAVIES & CO.,

THE BEST REMEDY FOR INDIGESTION.

TRADE NORTON'S MARK.
CAMOMILE PILLS are confidently recommended as a simple Remedy for Indigestion which is the cause of nearly all the diseases to which we are subject, being a medicine so uniformly grateful and beneficial, that it is with justice called the "Natural Strengthener of the Human Stomach." "Norton's Pills" act as a powerful tonic and gentle aperient are mild in their operation, safe under any circumstances, and thousands of persons can now bear testimony to the benefits to be derived from their use, as they have been a never-failing Family Friend for upwards of 45 years. Sold in Bottles at 1s. 1½d., 2s. 9d. and 11s. each, by all Medicine Vendors throughout the world.
CAUTION.
Be sure and ask for "NORTON'S PILLS," and do not be persuaded to purchase an imitation. je24w

THE GREAT EUROPEAN NOVELTY

"As great an advance over other aperient waters as they were over Epsom salts."—Dr. Silver, Physician and Prof. of Clinical Medicine, Charing Cross Hospital, London.
"Mild, certain, pleasant in flavour," according to Prof. Aitken, F.R.S., Royal Victoria Hos., Prof. Brunton, F.R.S., St. Bartholomew's Hos., London, and Prof. Roberts, Univ. Coll. Hos., London (authors of the leading British textbooks of medicine).
HUNYADI JÁNOS.
NEW APERIENT WATER.
"Most palatable, producing neither distress nor uneasiness."—Prof. MacNamara, Royal College of Surgeons, Ireland, Editor 7th Edition Neligan's Medicines.
Specially recommended for its richness in aperient salts, usefulness in bilious attacks, prevention of gout, rheumatism, piles, &c., by *Lancet, Brit. Med. Journal*, and the whole of Medical Press.
Recommended for women and children by Baron Leuc'ol, Dr. J. Marion Sims, Prof. A. Martin, &c., &c.

BUGS, FLEAS, MOTHS, BEETLES

AND ALL OTHER INSECTS ARE DESTROYED BY
KEATING'S INSECT POWDER.
Which is quite harmless to Domestic Animals.
In exterminating Beetles the success of this Powder is extraordinary, and no one need be troubled by those pests. It is perfectly clean in application.
Ask for and be sure to obtain "KEATING'S POWDER," as Imitations are Noxious, and fail in giving satisfaction.
SOLD BY ALL CHEMISTS IN TINS, 1s. and 2s. 6d each

KEATING'S BON BONS OR WORM TABLETS

A PURELY VEGETABLE SWEETMEAT, both in appearance and taste, furnishing a most agreeable method of administering the only certain remedy for INTESTINAL or THREAD WORMS. It is a perfectly safe and mild preparation, and is especially adapted to children.
SOLD IN TINS BY ALL CHEMISTS AND DRUGGISTS
